

Coir

best for
consistently
superior
growth

Profit Coir

Profit Coir is a specialised coconut fibre media designed for growing high quality plants with minimum effort. Profit Coir is made from whole coconut husks which are cut and crushed, then washed to create an ideal substrate for vegetable and ornamental plants.

MAXIMISING YOUR PROFIT

Profit Coir is an excellent growing substrate for commercial vegetable and flower crops and plants that do not like wet feet! It is a coarser material than Classic Coir, with a higher air to water ratio. Its consistent, medium chip size allows uniform drainage.

Profit Coir is a 100% natural, organic material and is a very stable product. Because it contains a high proportion of coir fibres the material can easily last for two seasons, decreasing your production costs while helping you grow premium quality plants.

DESIGNED FOR SUPERIOR RESULTS

Comprehensive quality control systems ensure a consistently high quality product that will provide you with superior growing results.

A variety of product sizes are available from the 4kg bale to specialised Gropacs and Gerbera Discs. All products are light and easy to handle and re-hydration is simple.

NATURALLY SUSTAINABLE & RENEWABLE

All Besgrow Coir products are produced from sustainable and renewable resources. The well planned cultivation and maintenance of Sri Lanka's coconut plantations ensures future sustainability.

CHARACTERISTICS

- Promotes healthy and vigorous root growth
- Increases air capacity and hydration of substrate
- Easy to re-hydrate and steer pH, EC and moisture contents
- Very stable physical structure
- Pre-washed to lower EC
- Produced under the Dutch RHP standards for growing media

USAGE

- Superior substrate for greenhouse and hydroponic production
- Enhances the generative properties of potting mixes
- Soil conditioner
- Home growers
- Commercial growers

TECHNICAL

- pH 5.5 – 6.0
- EC (mS/cm) 1.0-1.5
- Air / Water Ratio at 7cm 30% / 70%
- 14-15 litre/kg wet volume
- Moisture <15%

PACKS

- 4 kg bales
- Gerbera Discs
- A wide variety of Gropac sizes are available
- Gropacs are wrapped in UV treated plastic and can be made to measure with pre-cut drain slits and planting holes
